Dear Readers,

Our message is written in April 2020 and our yearbook will be published this spring when the never in our life happened world coronavirus pandemic tries to destroy humanity, economy, exhibitions. Year 2019 when these data have been audited and collected was in blooms.

We believe and hope when the crisis recedes fairs and exhibitions, the strongest face-to-face marketing communication tool will be back as essential for the human/business life.

CENTREX International Exhibition Statistics Union, the non-profit transparency platform of Central European exhibition organizers' since 1997 is proud to present her 21th review of audited exhibition statistics based on jointly implemented international industry standards.

During the 22 years CENTREX became the main exhibition cooperation organization in CEE. The main objective from the beginning was to provide credible information on exhibitions which gave the possibility of building trust.

In 2019 the members of the Union, also under accord with the Polish Chamber of Exhibition Industry all their members plus CENTREX guests Murator Expo and Gdansk International Fair – have been able to set the rigorous transparency regulations in motion, supervise the relevant visitor, exhibitor and exhibition space data – those instituting the market values of the trade fairs in the international competition.

Altogether **253 trade fairs in 24 locations/cities** have been brought under the process - the figures have been thoroughly analyzed, supervised and audited by our professionals and our allied partner under the same methodology, directives and indicators – to fully comply with demand from our visitor and exhibitor partners, industry associations, public.

The details are published in the following pages, however some aggregates are willing to come up here: net exhibition space: 1,393,541 sqm, number of exhibitors: 37,427, number of visitors: 2,140,297. The internationality of CEE trade fairs is 25 p.c. of the total.

Total Attendance is becoming a more precise indicator assessing the visitors' value. We experienced that much of exhibitor staff and the conference speakers are high quality visitors as well, therefore this Attendance figure includes these persons, as well.

From the beginning CENTREX is not only auditing/publishing company of trade fairs but dedicated, committed, enthusiastic promoter, initiator, pioneering union.

We invite you to follow our activity also on www.centrexstat.org and facebook/centrexunion

April , 2020

Yours sincerely,

Ildikó Molnár
Executive Director

EXHIBITION STATISTICS AND AUDITING RULES 2019

VISITORS

Number of visitors is calculated on evidence. Number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Season tickets sold are calculated as reasonable. Visitor number of family tickets are calculated as 4 visitors.

Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. Number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled in registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

TOTAL ATTENDANCE

Total attendance includes number of persons attending to the fairs, calculated on evidence – visitors, exhibitor staff, journalists, speakers and performers at special events during the fair.

.....

SPACE

The contracted space refers only to the area occupied by exhibitors. It corresponds to the number of square meters invoiced and paid for by these exhibitors. Surface areas given under agreements, barter deals are also counted as contracted. Contracted space is divided up in indoors and outdoors rented by exhibitors.

Special show space is where performances, shows, lectures, contests, it relates to the theme of the exhibition and it constitutes part of total net exhibition space.

International exhibition space occupied by international exhibitors (see below).

.....

EXHIBITORS

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the bill from the exhibition organiser and settles it directly. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for our statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand and their autonomy can be undoubtedly recognised even without physical separation. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.

International Exhibitors

International exhibitors are those exhibitors (companies, organisations) who are either foreign based or evidently being foreign (like embassies) or those of multinational character. (Multinational corporation is an enterprise that manages production or delivers services in more than one country.) The evidence comes from the exhibitor on the application form.
